About **Skills for Jobs**

'Skills for Jobs' (S4J) is a project of the Swiss Agency for Development and Cooperation (SDC) and implemented by Swisscontact Albania.

S4J addresses the main challenges of the Albanian Vocational Education and Training (VET) system by focusing on ensuring systemic change, capacity development and empowerment of key actors. Based on this approach, S4J supports partner VET providers in Albania in terms of employers' and partners' relations, diversification of VET offer, new ways of inclusive learning and quality, work-based learning in cooperation with employers, and organisational development.
